EnC Single Layer LED Tower Light with Buzzer

Key Features

Material: ABS Plastic
Voltage: 24 Volt DC
Lighting Type: LED
Light Block Color: Red
Available in: Buzzer
Mounting: Direct/Surface Mount

Product Description

The Single Layer LED Tower Light with Buzzer is a type of industrial warning light with a single red LED light and a loud, audible buzzer. It is typically used to alert workers of potential danger, such as high temperatures, low air pressure, or other hazardous conditions. The LED light is highly visible, making it easy to spot even in noisy and dark environments.

The buzzer is loud enough to be heard even over loud machinery and can be adjusted to different frequencies and volumes to suit different environments. This tower light is suitable for indoor or outdoor use and is designed to be highly resistant to dust, water, and vibration.

Tag Applications

- Manufacturing plants
- Warehouses
- Construction sites
- Airport runways
- Public and private transportation hubs
