

EnC Bluetooth (BLE) Credit Card Beacon

Key Features

Bluetooth:

Bluetooth 4.2

Dimension:

85.6mm x 54.1mm x 5.2mm

Read Range:

Up to 150 meters

Battery Capacity (mAh):

850mAh

Material:

ABS

IP Rating:

IP67

Product Description

Bluetooth credit card beacons are small battery-powered devices that broadcast a signal to nearby devices over Bluetooth Low Energy (BLE). They are used to transmit a unique identifier to nearby mobile phones or other devices. This BLE Beacon is a powerful and long-range beacon card with a range of over 150 meters. However, the range is determined by the work conditions. Bluetooth Beacons are used to provide indoor navigation, deliver location-based services, create proximity-based marketing campaigns, and provide analytics on the movement of people within a space. Bluetooth Beacons are typically installed in high-traffic areas such as shopping centers, airports, and museums.

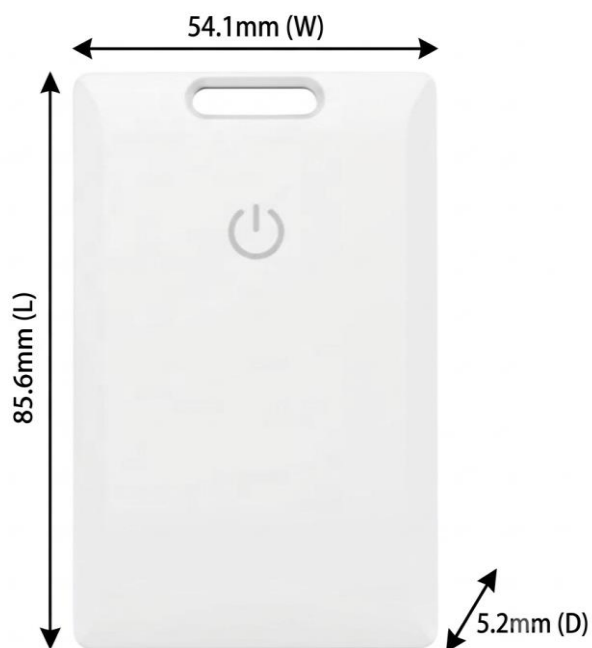

Tag Applications

- ❖ Asset & personnel management
- ❖ Sensor monitoring
- ❖ Positioning & location management
- ❖ Healthcare
- ❖ Manufacturing

Technical Specifications

Bluetooth	Bluetooth 4.2
Dimension	85.6mm x 54.1mm x 5.2mm
Read Range	Up to 150 meters
Battery Capacity (mAh)	850mAh
Material	ABS
Waterproof	Yes
IP Rating	IP67
Color	White
Installation	Hang, Neck chain, Sticker
Button	Mechanical button
LED	Single red LED
Sensor	3-axis accelerometer sensor
Operating temperature	20°C / + 60°C
