100mm x 12mm x 1up

Product Description

The Polyester Jewellery Barcode Label is a small, thin label made from polyester material and is designed to be used for labeling jewelry items.

The label is 100mm long and 12mm wide and is designed with a self-adhesive backing to make it easy to apply. It is ideal for use in retail stores, jewelry stores, and other businesses that deal with jewelry items.

The label is designed to be durable and long-lasting, as it is made from a special polyester material that is resistant to fading, smudging, and water damage.

The barcode on the label can be scanned easily by any barcode reader, making it a great way to quickly and accurately track jewelry items.

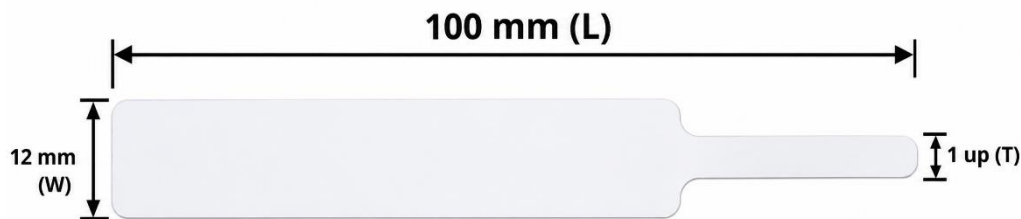

Tag Applications

- ❖ Jewelry market
- ❖ Jewelry Warehouse
- ❖ Jewelry shops etc
