Card Size	54mm(L) X 86mm(W) x 1mm(T)

Product Description

Get the UHF RFID Hotel Key Card for accessing hotel rooms, room key cards for guests, designed to modernize hotel operations by providing contactless, secure, and efficient access control to all guests. The card is also suitable for hotel membership, gym and spa, clubs, loyalty, etc.

The UHF RFID hotel key card is built with durable PVC material and embedded with a high-performance UHF RFID chip (865–967 MHz) and offers reliable long-range reading. It is suitable for hotel door locks, elevators, parking systems, and guest identification as well. The long read range of up to 12m ensures that guests don’t have to tap the card at dedicated RFID readers.

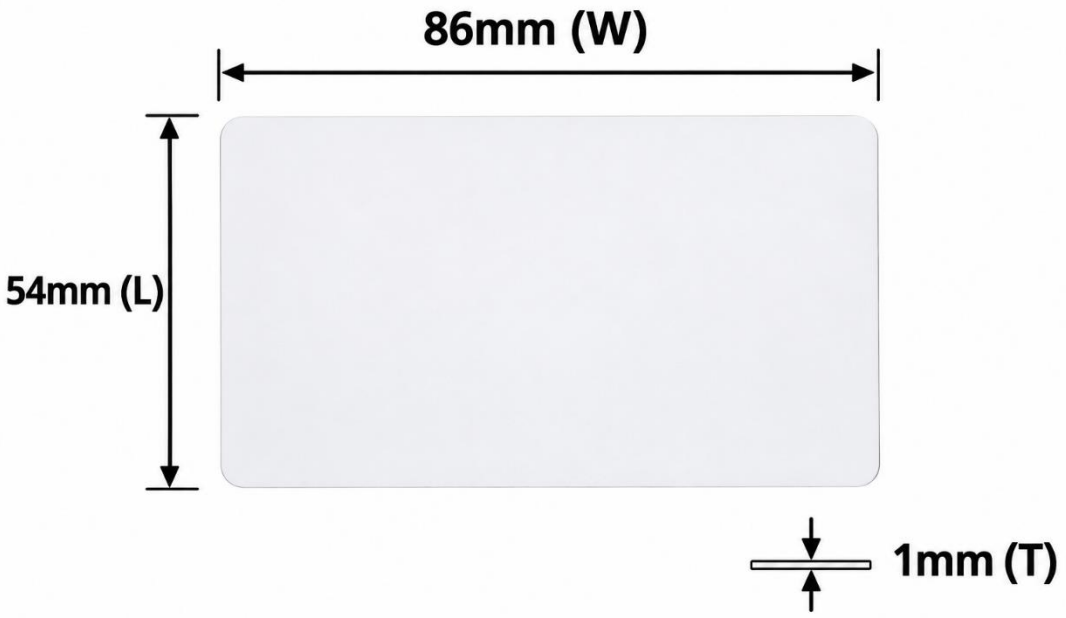

Card Applications

- Hotel room door key cards
- Guest identification & loyalty programs
- Access cards for cafes, spa, and gym
- Event and conference access in hotel venues
